Allowable Subject Matter

1. Claims 1-8 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Applicants' claims 1-8 are allowable over the references of record because none of these references disclose or can be combined to yield the claimed heat sink assembly comprising a heat sink including a lower base and an upper heat dissipating body, in which the base having a lower heat transfer surface adapted for contact with the upper surface of the electronic component and a reverse tapered working surface adapted to connectively contact the collar whereby the base and the heat sink may vertically move upwardly and downwardly with respect to the clip as the temperature of the electronic component is raised or lowered respectively, in combination with the remaining claimed limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rife et al. (PN 5,945,736), Rife (PN 6,075,699), and Rife (PN 6,252,774) disclose the formation of a heat sink assembly.
